How do I join Edamame?

A step-by-step guide for existing XM clients

If you already have an XM account, you do not need to register a completely new one. Simply open a new trading account within your existing XM client portal and enter the Edamame partner code — this takes less than 2 minutes.

Follow the 7 steps below.

⚠️ If your account is inactive, first reactivate it using your registered email address and phone number before proceeding to Step 1.

Step 1 Log in to your XM client portal

Open the XM app or website and log in to your existing account. You will see your current trading account on the dashboard.

Tap the + button at the top right of your account card to open a new trading account.

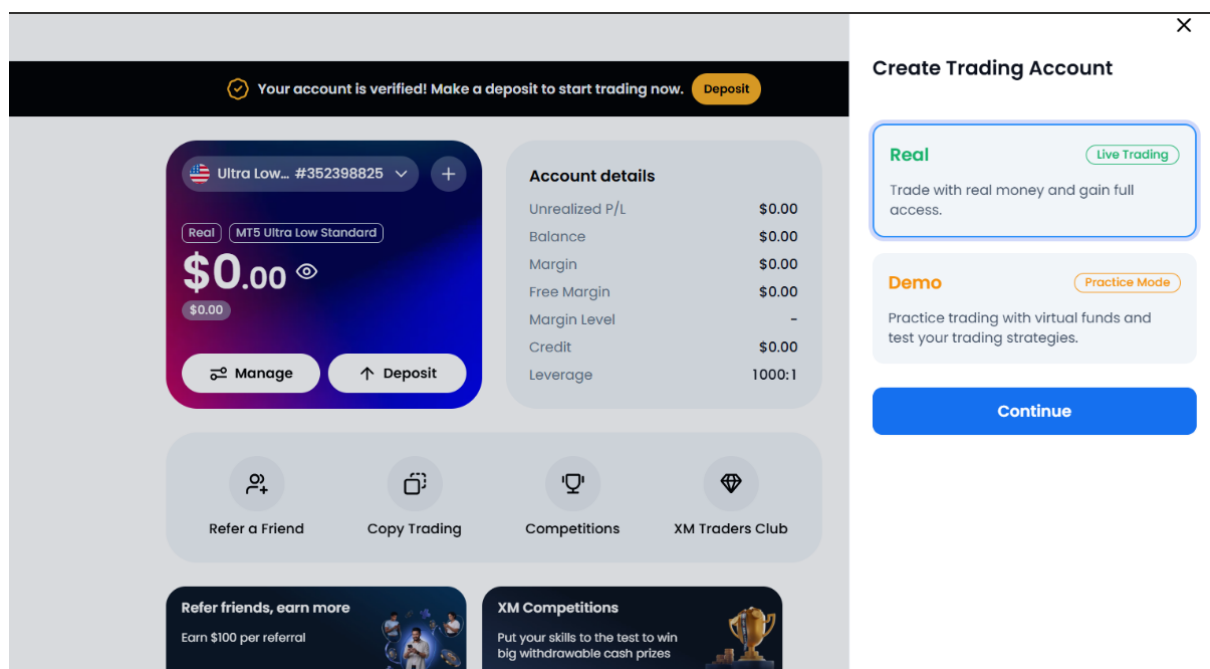

The screenshot displays the XM client portal dashboard. At the top, a black banner contains a checkmark icon and the text "Your account is verified! Make a deposit to start trading now." followed by a yellow "Deposit" button. Below this, the main dashboard features a large account card on the left and a table of account details on the right. The account card shows the account name "Ultra Low... #352398825", a dropdown menu, and a plus button. It also displays the account type "Real" and "MT5 Ultra Low Standard", the balance "\$0.00", and a "Manage" button. The account details table lists various metrics: Unrealized P/L, Balance, Margin, Free Margin, Margin Level, Credit, and Leverage, all showing \$0.00 or 1000:1. Below the account card, there are four icons representing different features: "Refer a Friend", "Copy Trading", "Competitions", and "XM Traders Club". At the bottom, there are two promotional banners: "Refer friends, earn more" with the text "Earn \$100 per referral" and "XM Competitions" with the text "Put your skills to the test to win big withdrawable cash prizes".

Balance	\$0.00
Margin	\$0.00
Free Margin	\$0.00
Margin Level	-
Credit	\$0.00
Leverage	1000:1

Step 2 Select "Real" account

A panel will appear asking you to choose the account type. Select Real (Live Trading) to open a live account that can be used with the Edamame algorithm.

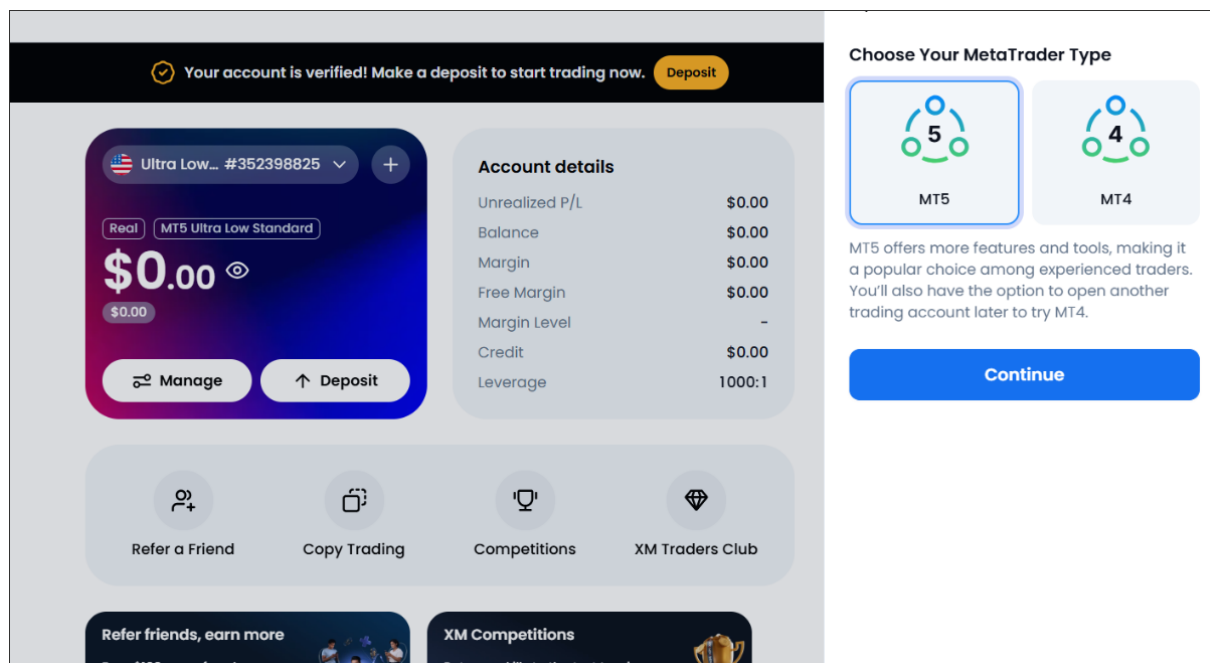

Tap Continue.

Step 3 Choose MetaTrader 5 (MT5)

Select MT5 as your MetaTrader platform. The Edamame algorithm runs exclusively on MT5.

Tap Continue.

Step 4 Select "Ultra Low Standard" account type

Choose the Ultra Low Standard account type. This is the account type compatible with the Edamame algorithm.

Tap Continue.

💡 Do not select Micro or Shares — select Ultra Low Standard only.

Step 7 Set your trading account password

Finally, set a password for your new MT5 trading account. This password is what you will use to log in to MetaTrader 5 on your VPS.

Tap Complete — your new trading account is now created and linked to Edamame.

💡 Save your trading account number and password — you will need them to set up the Edamame algorithm on your VPS.
